INTRODUCTION

Unfortunately, during the last year we have experienced high turnover in faculty and staff. Two notable acquisitions are the retirement of Collection Management and the appointment of a new faculty member. Ellen Adams accepted a position as librarian at the University of Alabama and Angelica Johnson left for the University of Arizona.

The strength of the collection has shifted from print materials to electronic resources. Although we continue to maintain a strong print collection and several other topical areas, we have shifted to electronic resources. Such changes have encouraged us to focus attention on achieving maximum value for our resources. Faculty and students prefer online resources for many reasons.

In addition, we subscribe to a variety of electronic databases, including CALI (California Law Information), MC-DIGITAL, CCH Tax Research Network, LexisNexis, and Westlaw. These are a host of quality databases available through MEALIE, for example, Lexis Academic Universe.

Law Libraries continue to make contributions in various professional settings. For example, a librarian wrote a CALI lesson on Georgia Primary Research Materials, and three librarians collaborated on a law review article on Researching Georgia Law, which appeared in the Georgia State University Law Review. Several librarians are active in regional and national library associations activities.

Please refer to the Annual Reports of the Library for the full list of faculty and staff. Besides their respective reports, they included important points for the year. Elizabeth Adams (head of Public Services) and Ellen Adams (Senior Reference Librarian) collaborated on the Public Services Report. Terrienne Macion (Electronic Services Librarian) wrote the Law Library Electronic Services Report.cribes the work of her department.

COLLEGE OF LAW LIBRARY ANNUAL REPORT  
2005/2006

INTRODUCTION

Unfortunately, during fiscal year 2005/2006, we experienced high turnover in library faculty and staff. Beth Adelman accepted a position as Head of Collection Management at SUNY-Buffalo to be close to family. Nan Adams accepted a position as Librarian at the 11th Circuit Court of Appeals Library. Staff members Cecelia Womack left for Alabama and Angelic Lyons left to work as a paralegal in a law firm.

Fortunately, as of August 1st, Ron Wheeler from the University of New Mexico will join us as the Associate Director of Public Services. During the summer, Deborah Schander, from Florida State University, joined us as our Intern.

The strength of the collection has shifted from print materials to electronic resources. Although we maintain a strong Georgia collection and several other topical areas, we have shifted to electronic resources. Such pressures have encouraged us to focus attention on achieving maximum value for our resource dollar. Faculty and students prefer online resources for many materials. In addition to Westlaw and LexisNexis, we also subscribe to a number of electronic services, including BNA "All" looseleaf services, LLMC-Digital, CCH Tax Research Network, Making of Modern Law, CIS Serial Set, and Hein Online. There is a host of quality databases available through GALILEO, for example, Lexis Academic Universe.

Law Librarians continue to make contributions in various professional settings. Four librarians wrote a CALI lesson on Georgia Primary Research Materials, two wrote a CALI lesson on copyright research, and three librarians collaborated on a law review article on Researching Georgia Law, which appeared in the Georgia State University Law Review. Several librarians are active in regional and national library association activities.

Please refer to the Annual Reports of the six library faculty members. Besides their departmental reports, they included departmental goals for the year. Elizabeth Adelman (Head of Public Services), Nan Adams (Senior Reference Librarians), and Colleen Williams (Reference Librarian) collaborated on the Public Services Report. Terrance Manion (Electronic Services Librarian) wrote the Law Library Electronic Services Report, Qian Cui (Catalog Librarian) wrote the Cataloging Report and Trina Holloway (Acquisitions/Serials Librarian) describes the work of her department.

ADMINISTRATIVE AND PERSONNEL

The attached organization chart (see Organization Chart) reflects the administrative structure of the Law Library as of July 2006. The library staffing includes seven librarians, twelve staff members, and approximately four F.T.E. student assistants. The position descriptions outline the specific duties of librarians and staff.
Since the numbers of faculty members and centers have increased during the past several years, the number of public service librarians is inadequate. The research needs of faculty members have increased while the number of research librarians has remained the same.

LIBRARY HOURS AND USERS

Beyond serving the students and faculty, the Library is open to attorneys and members of the legal community. We continue to serve members of the public doing pro bono work.

The library is open 103 hours per week or 5,355 hours per year, with some variation in the schedule for university breaks. According to the door count statistics, we had 102,956 visits to the Law Library and October 2005 was the busiest month with 10,132 visits.

SERVICES

The Reference Librarians provide a total of seventy-two hours of reference desk service each week. With the help of our GRA's, we provide reference assistance during weekends. The librarians answered a total of 5,323 questions during the year, with September being the busiest month with a total of 777 questions.

We assign each faculty member a library liaison and the library liaisons are in charge of their faculty's research requests. The library liaison works with our research GRAs to locate and collate information for faculty research. This program continues to be very successful.

The librarians and staff continue to stress high quality customer service and we take advantage of advanced training opportunities. Within the Law Library, we hold monthly Information Exchange meetings and the librarians and staff also attend COL events and meetings.

Terrance Manion and Nancy Johnson remain involved in teaching legal research to the first year law students and other classes. Additionally, the librarians offer tours and instruction to undergraduate and graduate classes. Nancy Johnson teaches the Advanced Legal Research Seminar.

Colleen Williams oversees Interlibrary Loan Services and her report details the statistics and goals. The Law Library participates in the University System of Georgia libraries' resource-sharing system, GIL Express. Students and faculty can check out books from other libraries using their library cards and the books are delivered to a location specified by the patron.

The Public Services Annual Report covers the circulation department, government documents unit, interlibrary loan, reference department, and stack maintenance.

TECHNOLOGY

Under Terrance Manion's supervision, technology services remain an integral part of the Law Library. Terrance discusses the extensive work of student computing, web services, library automation, and research technology in his Electronic Services Report. This year, the librarians and the technology staff developed a faculty publication website, which is very popular with the
faculties. Additionally, Terrance developed a database subscription website that allows researchers to easily access our electronic resources.

**LIBRARY COLLECTION**

As reported to the Association of Southeastern Research Libraries (2004-2005), we purchase 1,071 electronic “full-text” journals. Additionally, we hold 22,227 electronic full-text books.

During this past year, the librarians completed a revised collection development policy that reflects the strengths of the curriculum and the research needs of the faculty and students. Another document, the Electronic Resources Cataloging Policy, describes the procedures involved in selecting, purchasing, renewing, cataloging, advertising, and canceling electronic titles.

The following figures summarize the size of the collection as reported to the ABA in Fall, 2005:

### Budget

The Library's budget situation over the last several years can be effectively described as flat. First and foremost, there has been no ability to keep up with a constant inflation factor. As a result, cancellation of materials has become an unpleasant fact for this library. Through very careful decision-making, including use of electronic resources, complete reduction of duplication, and rigid review of all continuation titles, we have barely been able to maintain a core collection of print materials.

Steep price increases have continued unabated during this fiscal year. To illustrate the point, the most recent American Association of Law Libraries' Price Index for Legal Publications 2d, which tracks inflation of legal publications, documents that between 1998 and 2004 the inflation rate in the law book industry increased by 28%. This chart illustrates some increases:

<table>
<thead>
<tr>
<th></th>
<th>Price ('04)</th>
<th>Percentage Change ('03-'04)</th>
</tr>
</thead>

<td>$1,438/yr.</td>
<td>+5%</td>
</tr>
<tr>
<td>Supplemented Treatises</td>
<td>$696/yr.</td>

</tbody>
</table>

The key to the future is obviously renewed, steady budget growth with annual inflationary increases. Moving beyond the no-growth trend is an important element of the library's future fiscal health. We have canceled all duplicate titles and now we are canceling print titles that have online counterparts. While the law school continues to develop centers and clinics, the law library cannot support new programs.
TECHNICAL SERVICES

The Cataloging unit, under Qian Cui, has been very busy both adding books to the collection and withdrawing materials. During the year, we continued to add new print and electronic volumes and titles. The Cataloging Department cataloged 8,087 items, including 248 electronic journals. Qian also added a note in the cataloging record designating faculty authors. The Acquisitions/Serials unit, under Trina Holloway, accomplished several projects beyond ordering materials and binding journals.

SPACE and RENOVATION

The Law Library has 37,989 feet of shelving capacity available for library materials. We have adequate room to grow and our shelving capacity is just under the median shelving capacity of 32,384 feet for southeastern law libraries. During the year, we shifted to more electronic services, which resulted in withdrawing additional hard-copy materials. This shift will give us additional shelf space. The net square footage for library facilities is 44,678.

Public Services Goals for 1999-2000:
• Hire a new Reference Librarian for Public Services.
• Hire a new Reference Librarian.
• Upgrade Public Services. Preliminary personnel hiring plans have been shared with the Law Library.
• Reorganize the Public Services website.
• Update policies of Public Services Department.
Personnel
Beth Adelman is Head of Public Services, which is comprised of the following units and unit heads: Circulation (Keith Hill), Government Documents (Nancy Adams), Interlibrary Loan (Colleen Williams), Reference (Nancy Adams), and Stack Maintenance (Juanita Wheeler). Reports for each individual unit are below.

The upcoming fiscal year will bring staffing changes for Public Services. Beth Adelman and Nancy Adams are leaving Georgia State to pursue other opportunities. There will be a new Associate Director for Public Services to replace the Head of Public Services position and a new Reference Librarian will replace the Senior Reference Librarian position.

Public Services Goals for 2005/2006
- Strive to make Public Services function as a cohesive whole. *This goal was met but takes effort to maintain.*
- Continue to review the policies of each unit; update and/or create policies as necessary; reorganize the Public Services documents on the I drive. *Background research was done on many policies that need updating. The information will be made available to my predecessor.*
- Continue to organize continuing education presentations for the reference and public services staff as necessary. *Continuing education presentations took place during the first part of the year.*
- Plan and implement a new public services website. *Librarians met to discuss and do preliminary planning. This is a work in progress.*

Public Services Goals for 2006/2007
- Hire a new Associate Director for Public Services.
- Hire a new reference librarian.
- Restructure Public Services. Preliminary restructuring plans have been shared with the Law Librarian.
- Redesign the Public Services website.
- Update policies of Public Services Department
2005-2006 Circulation Annual Report
Keith Hill, Circulation Supervisor

Staffing:
Keith Hill is the Circulation Supervisor. He is responsible for scheduling, hiring, GIL Express, providing services to patrons at the Circulation Desk, and many other tasks.

Since 2001, Dermot Robinson, a Library Technical Assistant, is responsible for maintaining the Reserve/Electronic Reserve collections and providing services to library users at the Circulation Desk. Dermot also assists the Interlibrary Loan Department.

Stanley Oommen is no longer employed in the circulation department. Unfortunately, his visa status was not in compliance with federal law.

Betty Wright, a Library Technical Assistant, has been with the library since 2001. She was recently promoted to Administrative Coordinator.

Willard (Byll) Irvin, a Library Assistant II, has been with the library since 2002. He's responsible for providing services to patrons at the Circulation Desk, copying, and retrieving books for Faculty.

Euclides Peralta, a Circulation Student Assistant, has been with the library since 2003. Euclides provides services to patrons at the Circulation Desk and provides photocopy services for Faculty.

Jeffrey Enujioke, a Circulation Student Assistant, was terminated during the fall 2005.

Sherri Grady, a technical services employee, began working 9 hours per week at the circulation desk.

Chandni Amin was hired as a work-study student in fall 2005 and resigned during spring 2006. Carla Hill-Orlando was hired from the PantherTemp service during spring 2006. Also in spring 2006, Mesfin Yana was hired as a student assistant and Ivory Smith as Administrative Coordinator.

GIL Express
GIL Express, a statewide borrowing and lending consortium, has finally become functional. We have seen an increase in GIL Express requests since 2003. The number of requests received by calendar year:

2003: 12 requests
2004: 84 requests
2005: 363 requests
2006: Jan 2006- May 2006, 251 requests

Circulation Department Goals for 2004/2005

- Review Reserve procedures and update as necessary.
- Continue to make reserve records accurate.
- Continue cross-training with other library departments so that desk attendants who are available may assist other departments with their projects.
- Continue to update Circulation Manual for changes in policies, procedures, etc.

Circulation Department Goals for 2005/2006

- Continue to update Circulation Manual for changes in policies, procedures, etc. Goal met. This is an ongoing project.
- Continue cross-training with other library departments so that desk attendants who are available may assist other departments with various projects. Sherri (Technical Services) and Juanita (Stack Maintenance) have been covering desk hours.
- Update the training manual for new employees. Goal met. This is an ongoing project.
- Review Reserve procedures and update as necessary. Goal met. This is an ongoing project.
- Organize the faculty display case, keep current materials only, use display tents to highlight faculty name and publication. Goal met. This is an ongoing project.
- Train new student assistant. Goal met.
- Become proficient in using the study room booking online system. After training and a trial period, the department felt that this was not an efficient system for booking study rooms. However, it is still used to book the conference room and the computer lab teaching room.

Circulation Department Goals for 2006/2007

- Continue to update Circulation Manual for changes in policies, procedures, etc.
• Continue cross-training with other library departments so that desk attendants who are available may assist other departments with various projects.
• Update the training manual for new employees.
• Continue reorganizing the Circulation Department so that reserve records are accurate.
• Organize the faculty display case, keep current materials only, use display tents to highlight faculty name and publication.
• Train new student assistant.
• Hire a student assistant for Euclides’s position in August 2006.
• Attend the Endeavor conference to sharpen my skills and knowledge of Voyager.
• Computer upgrade, preferably a flatscreen.
• Continue my knowledge of Reserve and participate more in the process.
• Training for BANNER upgrade.

Government Documents/Microforms Services

Government documents are checked-in using the Voyager serials system with the exception of the microfiche congressional hearings (SuDoc Y 4) which are reflected in GIL. Monographs are added to the collection at the discretion of the Library Director.

We provide free print-outs of our microforms collection. Patrons make their own copies using the microforms reader/printer in the Microforms Room on the upper level.

Our CD-ROM and DVD documents are sent to Pullen under an agreement with Gayle Christian to house the documents outside of the Law Library. A list of CDs sent to Gayle this past year is attached.

Microforms guides and indexes are placed on the top of the cabinet which holds the corresponding micro set.

This year, I removed all of the congressional hearings on microfiche which belonged to the University Library. Years ago Gayle Christian sent us a microfiche cabinet of their “Y 4” documents (the hearings) and as it turned out they were duplicates of the fiche we already had. There is now an empty cabinet at the end of the congressional hearings on the back wall of the Microforms Room.

In October 2005, I attended the Federal Depository Library Program conference in Washington, DC. In December I attended the Georgia Government Documents Librarian’s meeting in Athens.
I trained Trina to manage documents until a new Government Documents Librarian is designated. Trina knows about checking in boxes of documents, statistics, the FDLP Desktop, the Item List, GOVDOC-L and other administrative functions. I also wrote out some detailed information for the documents librarian which is attached.

**Personnel**

Cecelia Womack, LTA (Serials), checks-in the government documents using Voyager serials module and also shelves hard copy documents (such as FR, CFR, and CR). Cecelia also checks in the House and Senate reports, documents, and prints on microfiche, which creates piece-level records of what we receive from GPO. This year, I trained Cecelia to file the congressional hearings fiche. She files that collection, but Stacks Maintenance files the rest of the fiche collection.

**Statistics**

The Law Library selects 5% of the available United States government documents. The University Library selects 75%. We received and processed 1065 hardcopy document pieces, 5287 microfiche pieces (2,407 fiche titles) and five CD-ROM documents during the year. Please see the Government Documents Received chart below for monthly totals.

4) Department of Justice, Federal Bureau of Investigations: Crime in the United States 1995-2001 ("This CD replaces the previous CD for Crime in the US 2001, destroy old CD")
Personnel:
Colleen Williams oversees Interlibrary Loan Services. A Graduate Research Assistant, Elinor Hale, assisted Colleen with the day-to-day lending and borrowing demands during summer semester 2005. Technical services staff member Angelic Lyons assisted from late summer 2005 until her departure in May 2006. (Technical services staff member Sherri Grady will assist during June 2006. Acquisitions librarian Trina Holloway will include Colleen when interviewing Angelic’s replacement.) Also assisting Colleen are circulation staff member Betty Wright and student worker Byll Irvin, whose support services include packaging outgoing materials, photocopying, and various circulation functions such as checking ILL books in and out as necessary.

Statistics:
Overall Borrowing and Lending Statistics: This year (June 2005 through May 2006) we borrowed 133 items (88 books and 45 articles) for GSU faculty, students, and staff through OCLC. The fill rate for volumes borrowed from other institutions via OCLC was 46%.

In addition, we loaned 592 books to other institutions (June 2005 through May 2006): 458 through OCLC (260 books, 198 photocopies) with a fill rate of 57% and 134 books to law firms via walk-up service, for a 64% total fill rate.

Differences from last year: The number of items borrowed for COL patrons borrowed this past fiscal year (133) was less than half of the number borrowed the prior year (329), and the fill rate from other OCLC institutions decreased substantially (from 82% to 46%). It is difficult to ascertain the reason for this drop, but it may be telling that two of the worst months were December 2005 (21 requests made, 3 filled)—when many library staff members take vacation—and March 2006 (17 requests made 4 filled)—when many ILL offices close for spring break. As for lending, the number of items lent decreased from 737, and our total fill rate was 1 percentage point lower than the previous year.

ILL Continuing Education:
Although Colleen Williams did not attend any formal ILL training sessions during the past fiscal year, she did learn more about ILL by doing the following:

- 2005 GOLD meeting, Aug. 5, University of Georgia
- Fall 2005 ARCHE meeting, Nov. 4, Mercer University Atlanta
- E-mail communications with Sheryl Williams, head of ILL at GSU University Library
- Viewed webcast from ILLiad conference on web interface customization, during week of March 27 2006
- Read messages from three ILL-related listservs:
  - Georgia libraries listserv
  - University System of Georgia libraries listserv
  - Nation-wide ILLiad listserv

Resource Sharing Systems
ILLIad: As of fall semester 2005, select GSU COL patrons have been able to register for ILLiad, a software-based ILL system, and log in to make interlibrary loan requests. In the spring of 2006, COL web coordinator Earl Daniels customized the ILLiad web pages to fit in with the look and feel of the rest of the Law Library website. By the end of the fiscal year we went “live” with the system, meaning ILL staff now have greater access to OCLC through ILLiad (before, we had to toggle between ILLiad and FirstSearch, OCLC’s web product). Those already registered in ILLiad are not affected by this latter development. ILLiad will be used to make requests for our patrons, but not to process requests from other libraries (see below).

OCLC FirstSearch: This website is still used for processing lending requests, as well as accessing ILL statistics (which are no longer sent out in hard copy).

GIL Express: As predicted in last year’s report, GIL Express has not eliminated ILL book requests from other University System of Georgia libraries. However, a drop in lending requests can be observed by comparing statistics of three randomly chosen libraries. Requests from Georgia Southern have decreased from 6 in FY03/04 to 2 in FY04/05 to 0 in FY05/06. Requests from Kennesaw State have decreased from 17 in FY03/04 to 15 in FY04/05 to 6 in FY05/06. Requests from Valdosta State have decreased from 14 in FY03/04 to 9 in FY04/05 to 5 in FY05/06. GIL Express will probably not significantly affect ILL request volume in the future, either for borrowing (as the Law Library requests a large number of articles for Law Review and faculty) or lending (the vast majority of book requests are from non-USG libraries, and articles aren’t obtainable through GIL Express).

Equipment
During the past fiscal year, an ILL workstation was installed in Colleen Williams’ office. It consists of a small filing cabinet, a table, a laptop attached to the table with a security cable, a color printer, and a scanner.
ILL Goals for 2005/2006:

- Keep interlibrary loan fill rate 50-70%
  - Done. The fill rate was 64%
- Help GRA provide timely, efficient ILL services
  - Done. I explained to the GRA (and later to Angelic) the concept of requests aging to the next lender after four days. I monitored the incoming requests to make sure they were addressed.
- Implement ILLiad (borrowing and lending)
  - Create ILL system that combines ILLiad and FirstSearch
    - Done. The system uses ILLiad for placing requests and FirstSearch for incoming requests and statistics.
  - Create ILL web pages from content currently in Word
    - Done. The web pages are posted on the Law Library website.
  - If COL personnel unable to post the web pages before the beginning of Fall, send Law Library ILLiad logon link to heavy ILL users (e.g., law review, certain faculty)
    - I explained ILLiad to Law Review at their orientation at the beginning of fall semester 2005. I did not send the link to faculty, preferring to first explain the system to them at a brown-bag presentation (see below).
- Market ILLiad
  - Present faculty brown-bag session on ILLiad and GIL Express
    - Terrance and I were to do a session on self-help services, including ILLiad and GIL Express. However, the session was canceled due to its conflict with Steve Kaminshine’s interview to be the permanent dean. It was unable to be rescheduled.
  - Train incoming law review students on ILL and GIL Express
    - This was done at the orientation at the beginning of fall semester 2005.

Goals for 2006/2007:

- Keep interlibrary loan fill rate 50-70%
- Help staff assistant provide timely, efficient ILL services
- Smoothly incorporate ILLiad (borrowing) into the ILL workflow
- Market ILLiad
  - Present brown-bag session on ILLiad and GIL Express to faculty
  - Train incoming law review students on ILLiad and GIL Express
- Present ILLiad system to reference group (and interested staff)
2005-2006 Reference Department Annual Report
Nancy Adams, Senior Reference Librarian
June 12, 2006

As Senior Reference Librarian, I manage reference services, the United States government documents depository collection, the microforms collection, the Georgia collection and Reserves. The following is an overview of accomplishments and events from July 2004 to June 2005. Attached are several documents providing detailed information about reference and government documents statistics, government documents CDs transferred to the University Library, government documents information, and faculty liaisons.

Reference Services

The Reference Department provides reference assistance during the following hours, totaling 72 hours per week:

- Monday - Thursday 9:00 am - 9:00 pm
- Friday 9:00 am - 5:00 pm
- Saturday - Sunday 10:00 am - 6:00 pm

During semester breaks, the reference desk hours are Monday - Friday from 9:00 am to 5:00 pm for a total of 40 hours per week. There is no weekend reference service during semester breaks.

Faculty Liaison Program - All full-time and adjunct faculty are assigned a reference librarian as a primary contact for all library requests. Adjunct faculty were added to this list in May 2005. The RWA Instructors are served by the reference librarian on duty at the time of the request. The 2006 list of liaisons and their faculty members is attached.

Orientation Tours for classes - The reference librarians conduct tours of the law library for GSU classes upon request of the professor. Usually these tours include an introduction to legal bibliography. We collect our outlines for these classes on the I: drive in the folder: I:\Departments\PubSvcs\Ref\Class Tours. Some of the tours/lectures offered this year were: Local Government Law, Sports Law and Social Work and the Law (GSU).

Personnel

The reference desk is staffed primarily by Nan (Senior Reference Librarian), Colleen (Reference Librarian), Beth (Head of Public Services), and Terrance (E-services Librarian). Trina Holloway, Acquisitions/Serials Librarian works one shift per week. Graduate research assistants cover weekends and one or two nights a week.

Our GRAs during Fall 2004 were Mazy Lynn Causey, Leanne Messer, Michael Cullinan, and Susan Blum. Spring 2006 GRAs were Susan, Leanne, and Grant Brim. During the summer semester (2006) Alexis West and Christine Raj work during the week and Elise White and Tony Yonnone work the weekend shifts.
During the 2005-2006 academic year we hired GRAs to work on librarian and faculty research projects. The research GRAs this year were:

Fall: Kasey Libby, Kris Klein and Audrey Dulmage
Spring: Matt Kaynard and Stephanie Mutti
Summer: Keith Hayaska and Beth McCree

This year, I created several documents to assist with GRA training, which are attached to this report. The “GRA FAQs” and “Reference GRA Overview” documents were compiled from questions and comments of former GRAs. The “Reference GRA Training” document is an outline of my 2-hour training session with new GRAs. It can be used as a training outline for new reference librarians as well. I also revised the GRA Manual. These new documents are in I:\departments\PubSvcs\Ref\GRAs.

The new revision of the Bibliography of State Primary Source Material was finalized in November 2005. The bibliography now includes web address for state codes and other material. This is especially valuable now that we have cancelled and withdrawn most of our state codes in hardcopy. The new edition of the bibliography is in I:\Departments\PubSvcs\Ref\Projects\States Bibliography.

**Statistics**

Reference answered a total of 5323 questions from June 1, 2005 to May 21, 2006. September was the busiest month with a total of 777 questions. See the Reference Desk Activity - Monthly Statistics chart below.

We use a MS Access database for compiling the reference statistics. The MS Access report for 2005-2006 is attached. Our “In Person” requests equal 88% and “research” requests account for 65% of total reference desk activity. The report also shows that 36% (14.65 + 21.83) of questions are fielded during the 9:00am-1:00pm shift and 44% (21.55 + 22.19) of questions occur during the 1:00-5:00pm shift. The evening shift (5:00-9:00pm) gets 20% percent of questions. I trained Christine Raj to input the statistics this summer. I showed Nancy where I keep the statistics folder in my office.

**Reserves Collection**

This year we continued using the campus-wide E-Res for reserves. The University Library set up the E-RES system which students access through GIL. All of our reserve materials are reflected in this system as well as electronic reserve documents, which are handled by Terrance. Each semester Kenéc Stephens provides the course booklist. I go through the list and order materials that we don’t have. I make sure that we have all the items on reserve and that they are linked to the courses. Dermot Robinson uses E-RES to input the information which I provide. I also send e-mail notes to all faculty informing them of what we have on reserve for their courses. Often the faculty will add to the list at that point.
I trained Qian to manage the Reserve Collection until a new Reserve Librarian is designated. Qian is in the process of returning personal copies of books and AV to the professors. The booklists files from previous semesters are in my office.

Annual Report ::: 2005-2006
Prepared by Terrance Manion, Electronic Services Librarian
Wednesday, July 05, 2006

Law Library Electronic Services is responsible for the development and support of computer
technologies and electronic services employed in the Law Library including student computing, web
services, library automation, and research & reference technology. Many services, namely those
dependant upon internal networking, are supported in conjunction with the College of Law
Technology Services staff and University Information Systems and Technology Services (IS&T)
department. The following annual report details events, projects and accomplishments that occurred
since the 2004-2005 annual report.

Electronic Services Staff

The Law Library Electronic Services Staff consists of:

1. Terrance Manion, Electronic Services Librarian
2. Yolanda Travis, PC System Specialist- Intermediate
3. Vacant, PC System Specialist- Assistant
4. Student Computer Lab Graduate Research Assistant (GRA)

Electronic Services experienced an organizational shift over the past year, or more so a return shift.
The PC System Specialist- Assistant (.5 FTE) position that was moved to Public Services in 2004-
2005 in order to create an evening circulation supervisor position was returned to Electronic Services
after the position could not be filled. Consequently, two of the GRA positions were eliminated leaving
one GRA position to cover weekend hours. The returned position has not been filled.

Student Computing

1. The Law Library Student Computer Lab workstations (36) were upgraded to Windows XP
operating system.

Web Services

1. Developed a database subscription website, http://law.gsu.edu/library/subscriptions.php. This
new web service allows researchers to browse Law Library electronic resources
alphabetically, by general subject categories, or by access restrictions. The list is made up of
databases purchased by the Law Library as well as legal-specific databases available via the
University Library and GALILEO. The service is database driven and can be integrated into
other electronic services. Since its launch this web service has been one of the top ten
College of Law web pages most visited every month.

2. Developed a faculty publication website, http://law.gsu.edu/library/index/faculty_publications/
This online bibliography includes books, articles, book chapters, expert testimony, work
product and electronic publications that have been written, edited or co-authored by the
Georgia State University College of Law faculty. Links are provided to the full text of the
publications, where available, on Westlaw, LexisNexis, Hein Online, SSRN and free on the Internet. The service is database driven and can be integrated into other electronic services. Presently it is scheduled to be integrated into the faculty biography web pages.

3. Implemented the OCLC ILLiad interlibrary loan management software and web service, http://illiad.gsu.edu/illiad/gl/logon.html. Project included: installing a dedicated ILLiad workstation, printer, and scanner in Law Library office 103; remote server and local client installations; customizing contact and implementation settings; and integrating web service into Law Library website template.

4. Law Library proxy server authentication migrated to the College of Law's MyLaw system. This allows better integration of the Law Library proxy services with other College of Law website services.

Library Automation

1. Installed seven librarian PCs, Dell OptiPlex GX520, Pentium 4, 2.8GHz workstations with flat screen monitors, DVD/CD-RW drives, and USB connections. Twelve library staff and public service desk PCs arrived (June 2006) and will be installed in July 2006.

4. Evaluated electronic resource management system (ERMS), deciding the present pool of products do not meet our unique needs as a small specialized library.

5. Evaluated federated search products, deciding that federated searching does not lend itself to the process of researching legal materials. None of the products explored broke search results into primary and secondary materials.

Research & Reference Technology

1. No online research services or databases were cancelled over the past year. The following online research services and databases have been added to the Law Library's collection of electronic resources. All new subscriptions provide IP-based authentication and can be accessed remotely by the College of Law community via the Law Library proxy server.
   a. RIA Checkpoint (access via the University Library license)

2. Secured funding via the Student Technology Fee proposal process to purchase the Making of Modern Law: Supreme Court Records and Briefs database. Funds will be released fall 2006.

3. The following databases and research services were evaluated but not purchased over the past year:
   a. Netbrary
   b. Readex Early American Newspapers

Departmental Goals for 2005-2006 Revisited
1. Implement Law Library new database list and ALR bibliographies pages pulling content from databases already created. Integrate the two along with CALI content to create a series of Law Library "research spring boards" (working title).
   a. Successfully implemented the Law Library new database list.
   b. The ALR Bibliographies Online project is nearing completion. This service is scheduled to be launched in late July 2006.
   c. Work on integrating the two services along with other services will begin in the fall.

2. Explore options on how to better track patron use of electronic resources and gather data for strategic planning.
   a. Law Library web services now push all electronic research through the Law Library proxy server. The proxy server logs are being used to track usage.

3. Work with Technology Service to develop comprehensive electronic resource policies and procedures.
   a. The Electronic Resource Cataloging Policy Committee, chaired by the Electronic Services Librarian, was formed and charged with creating a document coordinating the policies and procedures for Law Library electronic resources. The committee met over the course of eight weeks and created the Electronic resource Cataloging Policy and Procedure Document.

4. Develop new web content and services including ILL (ILLiad), and Public Services pages.
   a. The ILLiad interlibrary loan management software and web service was successfully launched.
   b. The development of public services website was put on hold until the arrival of the new Associate Director for Public Services.

5. Resurrect law student computer lab information and FAQ series publications.
   a. This information series was updated as of September 2005. The series is presently being revisited to make them more helpful to reference librarians supporting student computing in the evenings.

6. Secure funding to replace the 38 computers in the Lab with new computers in fall 2006.
   a. Through the Student Technology Fee proposal process, Electronic Services secured funds to replace the workstations in the Law Library student computer lab and public computing areas. Funds are released in fall 2006.

Departmental Goals for 2006-2007

1. Increase Law Library online content. This includes web services—similar to the faculty publications website and ALR online bibliographies— as well as research support documentation similar to research guides and springboards.

2. Increase access to online content. Evaluate how students and patron are accessing electronic resources and tweak present system to better support student and patron use.

3. Inventory and evaluate services provided by the Electronic Services Department with eye to eliminating duplication (with College of Law Technology Services), freeing resources to develop and support new services, and expanding existing services.

4. Reevaluate the responsibilities of the vacant PC System Specialist—Assistant position to better conform to the technology support needs of the Law Library and its patrons.
In fiscal year of 2005-2006, the Cataloging Department transferred duty of processing library materials from student assistant to a permanent position. Cecelia, who is responsible for serials check-in, assumes the processing duty for 10 hours per week and under supervision of Pamela Willis, who is a Library Associate II and the copy cataloger. Qian Cui, Catalog Librarian, is in charge of all cataloging activities and related projects.

**Cataloging statistics**

During 2005-2006, the Cataloging Department has cataloged 8,087 items, including 2,496 new titles and 5,591 added volumes and copies. Total titles and volumes withdrawals are 6,352.

**Completed projects**

1. Completed JX to KZ or JZ re-classification project on more than 1,200 bibliographic records.

2. Withdrew state codes, statutes, rules of court, regional digests, reporters (loose-leaf & microfiche), one copy of Statutes At Large.

3. Cleaned up over 1,660 suppressed records by re-linking holdings records, deleting duplicate records, and changing L-ACQ locations to correct locations.

4. Added holdings statements to micro-fiche&film serials records.

**Workshops and trainings**

Summary for 2005/2006 accomplishments

We have met our goals in microfiche holdings updating, in conversion of JX to JZ and KZ, and in suppressed records clean-up. We also added electronic resources cataloging procedures to cataloging manual. Pam has been trained to do electronic resources copy cataloging and is now working on HeinOnline holdings records.

Goals for 2006/2007

Receive training on government documents management, including check-in, cataloging, and processing.

Start cataloging titles for government documents, including updating bib records and adding electronic link to online titles.

Continue adding electronic titles to library database, such as titles in HeinOnline Legal Classics.

Re-visit rare book collection, catalog and update if necessary.

Based on Carol’s report, re-consider the duties of processing library materials to include government documents and re-define Pam’s position.

Purchase stamps for microfiche call number processing.

Investigate use of Serials Solutions for adding/updating holdings in the online catalog.
